WHO I AM

I am a Full Stack Web Developer – determined and hard working with a passion for creative solutions. Knowledgeable in, testing, and debugging processes. Bringing forth proficiency in concept, design, installation, testing and maintenance of web systems.

WHAT SETS ME APART

I have a broad background in management and with experience training and leading teams. By leveraging my educational background in psychology and fashion I find creative solutions to big picture problems. Recently in coding bootcamp I landed the lead project manager role on the three major projects and graduated with two recognition awards: most likely to win a design award and most likely to inspire future generations.

EXPERIENCE
